JAVA 编程进阶上机报告

学院智能与计算专业软件工程班级一班学号3018216063姓名陈宇涛

一、实验要求

将文件从源文件夹复制到目标文件夹

二、源代码

```
import java.io.File;
import java.io.IOException;
import java.nio.file.Files;
public class homework4 {
    public static void copyFile(String source, String destination, String
file) throws IOException{
       File s = new File(source+"/"+file);
       File d = new File(destination+"/"+file);
       try {
           Files.copy(s.toPath(), d.toPath());
       } catch (IOException e) {
           // TODO Auto-generated catch block
           System.out.println("复制错误");
           e.printStackTrace();
       }
   }
   public static void main(String argv[]) throws IOException{
       copyFile("D:","C:/Users/33608/Desktop","test.txt");
   }
}
```

三、实验结果
